TONGS AND THE HATCHET

Chinese Are Forming Highbinder Unions.

S EE YUPS other than the merchant now the only element needed for the starting of a highbinder war, ac-

cording to the most approved plans of the Pacific Coast celestial, is a cause for action and some nerve on the part of the actors. While there are some merchants who believe there is no other purpose behind the Yi Yee Tong, which opened its quarters at Maunakea and Hotel street last evening, the meinbers of the tong say it is simply a beneficial association.

The Yi Yee Tong starts out with a room on the third floor of the building at the place named, and the adjoining steeping and card rooms, which go to make up the most approved club. The membership is principally of cooks and some of the workers of other trades, though the domestics predominate. They are, according to their own words, bound together to take care of the sick or poor of their race. The members who were enjoying them-selves at the club vesteries. selves at the club yesterday denied that there was any oath or pledge to make the fight of a brother a general one. and they insisted that it was only the beneficial plan which was thought of in the bringing together of the See Yup young men at this time.

Yup young men at this time.

The tong starts off well, though the fact that there are few of the members who want to say anything about the order rendered it impossible to get hold of names or numbers. One member estimated that there are 100 men in the tong to start it off, and that the furnishings are all paid for, as are the expenses of the inauguration of the

There is a second meaning given to the tong by some of those who very eagerly deny that there is any intention to create a highbinder society out of the innocent appearing beneficial league. It is contended that the real reason for the organization is that the cooks and house boys of the city are desirous of forming a labor union on the basis of the other labor unions of the city, and the form taken has been this tong. That it is composed only of the See Yup boys is said to mean simply that the Sam Yups have now a tong, known as the Fook Lum, which is composed of the laborers from the three provinces, just as the new body is

of those from the four.

The organization of this tong has re-The organization of this tong has renewed a rumor that there will be no regular reorganization of the United Chinese Society, but a splitting up of the Chinese of the city into tongs, for the purpose of taking care of the very same objects which are almed to be accomplished by the United Society, This course has been talked of for some time and the opponents of the consult was dedicated, and have threatened it as the last resort.

The ins of the United Society will hold their meeting with the merchants soon, and there should be little time lost in bringing up their contest over the Treasurer's decision.
